DEFINITIONS AND INSTRUCTIONS**A. GENERAL**

1. It includes claims in the nature of or sounding in tort, or under contract, warranty, guarantee, contribution, joint and several liability, subrogation, reimbursement, or indemnity, or any other theory of law or equity, or admiralty for, relating to, or arising out of, resulting from, or attributable to, directly or indirectly, death, bodily injury, sickness, disease, or other personal injuries or other damages caused, or allegedly caused, directly or indirectly, and arising or allegedly arising, directly or indirectly, from acts or omissions of one or more of the Debtors. It includes all such claims, debts, obligations or liabilities for compensatory damages such as loss of consortium, personal or bodily injury (whether physical, emotional or otherwise), wrongful death, survivorship, proximate, consequential, general, special, and punitive damages.

B. PART I -- Identity of Injured Person and His or Her Lawyer

Respond to all applicable questions. If you are represented by a lawyer, then in Part I (b), please provide your lawyer's name and the name, telephone number and address of his/her firm. If you are represented by a lawyer, he/she must assist in the completion of this Questionnaire. Also, if you would prefer that the Debtors send any additional materials only to your lawyer, instead of sending such materials to you, then check the box indicating this in Part I (b).

If the injured person is deceased, then be sure to complete Part I (c), which concerns the primary and contributing causes of death.

All references to "you" or the like in Parts I through VII and IX shall mean the injured person.

C. PART II -- Asbestos-Related Medical Condition(s)

If you have received multiple diagnoses and/or consulted with multiple doctors, please photocopy Part II to provide the requested information **for each diagnosis and/or doctor**.

In Part II (a), respond to all applicable questions. If a section is left blank, then that section will be interpreted to mean that the injured party does not have the specified injuries, conditions, or test results addressed in that section. To complete questions related to injuries, medical diagnoses, and/or conditions, please use the following definitions:

Mesothelioma: Malignant mesothelioma, a cause of which was exposure to Grace asbestos-containing products, diagnosed in separate opinions from two independent pathologists certified by the American Board of Pathology.

Asbestos-Related Lung Cancer 1: Primary lung cancer (1) diagnosed on the basis of findings by an independent pathologist certified by the American Board of Pathology; (2) with evidence of asbestosis based on a chest x-ray reading by a B-reader and replicated by an independent B-reader, both of whom are certified by the National Institute for Occupational Safety and Health, of at least 1/1 on the ILO grade scale, or asbestosis determined by pathology; and (3) with a supporting independent medical diagnosis and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the lung cancer.

Asbestos-Related Lung Cancer 2: Primary lung cancer (1) diagnosed on the basis of findings by an independent pathologist certified by the American Board of Pathology; (2) with evidence of asbestos-related nonmalignant disease based on a chest x-ray reading by a B-reader and replicated by an independent B-reader, both of whom are certified by the National Institute for Occupational Safety and Health, of at least 1/0 on the ILO grade scale, or diffuse pleural thickening as defined in the ILO's *Guidelines for the Use of the ILO International Classification of Radiographs and Pneumoconioses* (2000); and (3) with a supporting independent medical diagnosis and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the lung cancer.

Other Cancer: Primary colon, laryngeal, esophageal, pharyngeal or stomach cancer (1) diagnosed on the basis of findings by an independent pathologist certified by the American Board of Pathology; (2) with evidence of asbestosis based on a chest x-ray reading by a B-reader and replicated by an independent B-reader, both of whom are certified by the National Institute for Occupational Safety and Health, of at least 1/1 on the ILO grade scale, or asbestosis determined by pathology; and (3) with a supporting independent medical diagnosis and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the cancer.

Clinically Severe Asbestosis: Asbestosis (1) diagnosed by an independent pulmonologist or internist certified by the American Board of Internal Medicine, (2) with either (a) a chest x-ray reading by a B-reader and replicated by an independent B-reader, both of whom are certified by the National Institute for Occupational Safety and Health, of at least 2/1 on the ILO grade scale, or (b) asbestosis determined by pathology; (3) with an independent pulmonary function test demonstrating either (a) total lung capacity less than 65% or (b) forced vital capacity less than 65% and a FEV1/FVC ratio greater than or equal to 65%; and (4) with a supporting independent medical diagnosis and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the asbestosis.

Asbestosis: Asbestosis (1) diagnosed by an independent pulmonologist or internist certified by the American Board of Internal Medicine; (2) with either (a) a chest x-ray reading by a B-reader and replicated by an independent B-reader, both of whom are certified by the National Institute for Occupational Safety and Health, with one of the following: (i) at least 1/0 on the ILO grade scale, or (ii) diffuse pleural thickening as defined in the ILO's *Guidelines for the Use of the ILO International Classification of Radiographs and Pneumoconioses* (2000), or (b) asbestosis determined by pathology; (3) with an independent pulmonary function test demonstrating a FEV1/FVC ratio greater than or equal to 65% with either (a) total lung capacity less than 80% or (b) forced vital capacity less than 80%; and (4) with a supporting independent medical diagnosis and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the asbestosis.

Other Asbestos Disease: Any asbestos-related injuries, medical diagnoses, and/or conditions other than those above.

THESE ARE THE DEFINITIONS THAT GRACE WILL USE IN DETERMINING ITS OWN POSITION REGARDING ITS LIABILITY FOR ASBESTOS-RELATED PERSONAL INJURY AND WRONGFUL DEATH CLAIMS AS A WHOLE. ALL INFORMATION, TESTS, DIAGNOSES, AND DOCUMENTATION SHOULD CONFORM TO THE DEFINITIONS. INFORMATION, TESTS, DIAGNOSES, AND DOCUMENTATION THAT DO NOT CONFORM TO THE DEFINITIONS MAY BE SUBMITTED, BUT GRACE WILL ASSERT IN COURT THAT THEY SHOULD BE GIVEN LITTLE OR NO WEIGHT.

The Debtors will take the position that a physician's finding that an injured person's disease is "consistent with" or "compatible with" asbestosis is insufficient under applicable rules of evidence to prove asbestosis [and will therefore seek to estimate the value of any claim based on such a diagnosis with no further evidence at zero and to value any such Claim at zero for purposes of allowance and distribution].

The injured person should include the following for all diagnoses of asbestosis: (i) a physical examination of the Claimant by the physician providing the diagnosis of the asbestos-related disease, (ii) x-ray readings by certified B-readers, and (iii) pulmonary function test results; provided, however, that pathological evidence of the non-malignant asbestos-related disease in the case of a Claimant who was deceased at the time the Claim was filed shall suffice in lieu of (i), (ii) and (iii) above. If a chest x-ray reading by a certified B-reader is provided along with a replicated reading by an independent certified B-reader, the chest x-rays do not need to be attached at this time, but may be requested at a later time. All pulmonary function test results must include the actual raw data, including all spirometric tracings, on which the results are based. All examinations, tests, and diagnoses should conform to the instructions above and below. This Questionnaire also must be accompanied by any and all documents that you and your counsel have or reasonably can obtain that support or otherwise relate to your diagnosis and your exposure to asbestos-containing products as a cause of the medical diagnoses, and/or conditions claimed.

Any person asserting an Other Asbestos Disease should include all chest x-ray readings, pulmonary function test results, and supporting medical diagnoses and supporting documentation establishing exposure to Grace asbestos-containing products as a cause of the disease.

With respect to any diagnoses of any of the diseases and/or conditions identified in Part II, include a history of your exposure to Grace asbestos-containing products sufficient to establish a 10-year latency period, and include all documents that relate to your exposure to Grace asbestos-containing products.

In Part II (b), (c) and (d), please provide the requested information for (1) the diagnosing doctor during your first diagnosis and, if applicable, all additional diagnosis, (2) each B-reader that has provided a chest x-ray reading, and (3) each doctor, if any, that has treated your condition.

Any diagnosis relied upon should be from a medical doctor with the qualifications described in this Questionnaire and who is independent of lawyers representing asbestos claimants.

A doctor or B-reader is considered "independent" if the doctor or B-reader has no social or financial relationship with lawyers representing asbestos claimants.

All chest x-ray readings must be replicated and comply with the standards set forth in the International Labour Organization's 1980 International Classification of Radiographs of Pneumoconioses. All pulmonary function test results must comply with the standards set forth in the American Thoracic Society's Lung Function Testing; Selection of Reference Values and Interpretive Strategies.

D. PART III -- Occupational Exposure to Asbestos-Containing Products

I. PART VIII -- Claims by Dependents or Related Persons

Part VIII (a) is to be completed only by dependents or related persons (such as spouse or child) of an injured person who sued the Debtors before April 2, 2001 for an asbestos-related personal injury or wrongful death claim against Grace not involving physical injury to him-/herself on account of his/her own exposure. One example of such a claim would be a claim for loss of consortium. If you are asserting such a claim, complete the entire Questionnaire, providing all information and documentation regarding the injured person.

Part VIII (b) is to be completed by a dependent or related person who sued the Debtors before April 2, 2001 for an asbestos-related personal injury or wrongful death claim that does involve physical injury to him-/herself based on his/her own exposure to Grace asbestos-containing products. Such dependent or related person is considered a separate "injured person" and he/she or the legal representative must fill out a separate Questionnaire. This section is to be used by only one dependent or related person. This Questionnaire must be signed by the dependent or related person or the person filing the Claim on his/her behalf (such as the personal representative or his/her lawyer).

You are further attesting and swearing that you have not omitted any requested information, the inclusion of which would have a material effect on any right to assert a Claim against the Debtors' estates. If the injured person is deceased, then the executor of the person's will (or similar estate representative) must complete this Questionnaire, including Part X, and references in Part X to "you" mean the person completing and filing this Questionnaire.

If you are represented by a lawyer, you and your lawyer must both sign Part X. Your lawyer must assist in the completion of this Questionnaire and must conduct reasonable inquiries and investigation to obtain all materials requested by this Questionnaire. By signing Part X, your lawyer is attesting and swearing that to the best of his/her knowledge, based upon a reasonable investigation of the facts, all of the information in this Questionnaire is true, accurate and complete.

If you (and/or your lawyer, if applicable) fail to complete Part X, your Questionnaire will be considered incomplete, and the Debtors will move the Court for the permanent expungement and disallowance of your asserted Claim.
